Orange

Green

Laser

All plch systems have been cut and filled with composite.

High-quality planks for tables and benches
 ...are manufactured of heartwood-free fir.
 Twisting of the wood planks is nearly impossible.

- Only German quality glue is used for gluing the wood planks (two-components-glye according to DIN 55305).
- For sealing the surfaces is used a special elastic UV coating (German trade-name product), which is used in boat and window fabrication.
- The top sides of the wood planks are coated three times, the bottom sides once. This special coating is more weather-resistant than conventional UV coatings and guarantees extremely smooth edges. For this reason, our folding tables and benches are also suitable for beer gardens.

TEXTILE COVERS FOR STANDING HEIGHT TABLES

Standing-height table Bistro

- Elegant design.
- Top quality.
- Sturdy stand by means of „four-leg“ system.
- Robust square hollow round profile.
- Table surface made from self-resistant, water-tight, heat-resistant material.
- Ideal for outdoor use.
- Hot-galvanized.

Dimensions: Ø 85 cm, H = 115 cm
 Weight: 13,5 kg
